Ishaan Varma

Nagpur, India | +91-90000-12345 | ishaan.varma@example.com | linkedin.com/in/ishaan-varma-example | github.com/ishaan-v-example

SUMMARY

Data engineer who builds verification pipelines and flight-data tools. Shipped a flood alert service used by 3 district offices and cut nightly workflow runtime by 40%. Comfortable profiling Python services and writing efficient SQL.

PROJECTS

Tidepool – Flood Alert Service (live, code) | *Python, FastAPI, PostgreSQL* Jan 2025

- Built a flood alert service that sends river-level warnings to **3 district offices** within **5 minutes** of a gauge reading
- Added a verification step that flags gauges whose readings drift, cutting false alerts by **62%**

Kestrel – Flight Log Classifier (live) | *PyTorch, Streamlit* Aug 2024

- Trained a classifier that labels drone flight logs as normal or faulty with **91% accuracy** on 4,000 logs

EXPERIENCE

Northwind Analytics Mar 2023 – Present
Data Engineer *Pune, India*

- Rebuilt the nightly workflow on Airflow, cutting runtime from **5 hours to 3 hours** for 120 reporting tables
- Wrote data verification checks that catch schema drift before dashboards refresh, used by a team of **8 analysts**

Harbor Labs Jun 2022 – Feb 2023
Software Engineering Intern *Remote*

CERTIFICATIONS

AWS Certified Data Engineer – Associate, 2024
Certified Kubernetes Application Developer (CKAD), 2023

EDUCATION

Visvesvaraya National Institute of Technology Jul 2018 – May 2022
B.Tech, Electrical Engineering | *CGPA 8.6/10* *Nagpur, India*

TECHNICAL SKILLS

Languages: Python, SQL, Go
Data: Airflow, Spark, PostgreSQL, dbt
Tools: Docker, Git, Linux, profiling with py-spy
