gRPC, REST, OpenAPI

Education

Goa University
B.E., Information Technology
2015 – 2019

Languages

English, Konkani, Hindi

Summary

Backend engineer with five years of building payment and booking services in Go and Python. Cares about clear APIs, boring deploys and good on-call notes.

Experience

Harbourline Payments 2021 – Present
Senior Backend Engineer Bengaluru

- Rebuilt the refunds service in Go, cutting p99 latency from 900 ms to 180 ms while traffic doubled.
- Moved four services from a shared database to their own PostgreSQL schemas.
- Wrote the on-call runbook used by three teams.

Tripwell 2019 – 2021
Backend Engineer Remote

- Built the booking API in Python and Flask, serving 2 million requests a day.
- Added contract tests between the booking and payment services.

Projects

Ledgerlite (live, code) 2024

- A double-entry ledger service in Go with an append-only event log.

Queue Peek (live) 2023

- A small web view of Kafka topics for debugging consumers.
