Meera Kulkarni

Pune, India | +91 98200 55501 | meera.kulkarni@example.com | linkedin.com/in/meera-kulkarni-example | github.com/meera-k-example

Education

B.Tech in Computer Engineering, Vishwakarma Institute of Technology, Pune 2016 - 2020

- CGPA: 8.4/10

Experience

Software Engineer, Lakeshore Logistics Jul 2022 - Present

- Built a shipment tracking API in Python and FastAPI that serves 1.2 million requests a day
- Tuned slow PostgreSQL queries and added Redis caching, cutting median API response time from 420 ms to 150 ms
- Wrote a nightly job that reconciles 300,000 delivery records and flags mismatches for the operations team
- Wrote automated unit and integration tests with pytest, raising coverage of the billing module from 35% to 80%
- Reviewed pull requests for a team of 5 engineers and wrote the team's API style guide

Associate Software Engineer, Brightpath Systems Aug 2020 - Jun 2022

- Developed internal dashboards in React and TypeScript used by 40 support agents
- Moved 12 cron jobs from a single server to Docker containers deployed through GitHub Actions
- Fixed a data export bug that had caused duplicate invoices for 3 enterprise customers

Projects

Bus Arrival Predictor

- Trained a gradient boosting model on 6 months of public GPS data to predict bus arrival times within 2 minutes on average
- Served predictions through a small Flask app and wrote a README with setup steps

Technical Skills

Languages: Python, TypeScript, SQL, Java

Frameworks and tools: FastAPI, Flask, React, Docker, GitHub Actions, Redis, PostgreSQL, pytest
